**End-to-End Backend & Smart Data Extraction & AI Agent**

# About Me

I'm Saeed Amini, 28 years old, based in London.
For the past six years,
I've dedicated myself to programming and continuously
follow global tech trends with passion.

Leveraging my expertise in back-end development,
automated data collection (web scraping),
and AI-driven intelligent systems,
I build innovative and impactful projects that help businesses
embrace the digital future.

# Database developer

# For website shopping

This image displays an ER diagram for buy/sell shops.
I have developed database scripts to construct this database automatically.
Simply copy and paste the provided code into your database the schema will be created instantly, and sample data will be populated into all tables.
Ready-to-use code is available for:
**Oracle**
**MySQL**
**SQLAlchemy**
**Java (JSP)**

# Logo design
# For crypo
# telegram chanel

I created several logo drafts displaying
'whale' for a client to select from.
promising to adjust their chosen design
as needed.
The work took 4 days.

SaeedAmini50/logo_crypto_whale

# Skills

## Backend

Python
Django
Flask
Api Integration

Git & GitHub

jQuery, Basic TypeScript)

Design Tools (Photoshop,
Canva, CapCut)

Digital Marketing (SEO
Website, SEO Social
Media, Meta Ads)

# My Work Policy

## Collaboration & Communication

◆ Clear definition of project scope and expected deliverables at the start

◆ Consistent communication via Upwork chat

◆ Weekly progress updates to ensure transparency and alignment

## Timeline & Delivery

⏳ A detailed timeline for each project phase

⏳ Delivery of a prototype for early feedback

⏳ Final stage includes optimization and bug fixing before hand-off.

## Quality Assurance & Support

✅ One month of free post-delivery support to address any issues

✅ Guaranteed performance according to defined specifications
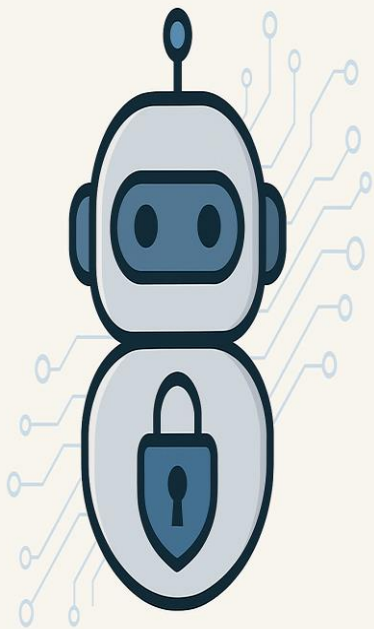

✅ Full confidentiality for all project assets and code

## Payment Terms

💳 30% upfront as a project deposit

💳 40% upon delivery of the initial version

💳 30% upon final delivery and project approval

# Final Words

*I'm not just a developer or designer
I'm your Digital Transformation Partner,
empowering your business growth through
cutting-edge solutions and technical
excellence.*

**Let's build together
with precision beyond expectations**

Final Words

# Thank you
